Overview (Non-IMA and IMA combined)

About these statistics

The tables in this publication present statistics about people in refugee status determination processes. Unless otherwise indicated all figures relate to the number of events (such as a visa grant or a refusal) in a given time period.

Outcomes reflect the grant of a Protection visa or a refusal decision rather than a finding that a person is or is not a refugee.

For the irregular maritime arrival (IMA) caseload, the number of visa grants and the associated percentages in the tables do not necessarily reflect underlying recognition rates. This is because of the passage of time following a finding that a person is a refugee while awaiting health, security or character checks. To provide a fuller picture this publication now includes tables about outcomes during the twelve months to the end of each quarter and for IMA cohorts by year of arrival.

Table 1: Number of people seeking Australia's protection

Program Year	Quarter	Non-IMA[1] Protection visa applications[2] lodged	IMA refugee status determination requests received[3]	Total
2009-10		**5987**	**4591**	**10578**
2010-11		**6316**	**5175**	**11491**

Table 1 shows the number of requests for protection by non-IMA and IMA asylum seekers. Non-IMA Protection visa applications are typically lodged by air arrivals (but may include very small numbers of ship stowaways or maritime crew). Among non-IMA applicants, arrival in Australia may have occurred in a period prior to that of application.

[1] Non irregular maritime arrivals. Non-IMA generally refers to Protection visa applicants who arrived by air and are already in Australia's migration zone.
[2] Number of PV applications refers to the number of people (including family members) who made a valid application claiming protection in Australia.
[3] Refugee status determination requests counted by people screened into a determination process for IMAs.

Table 2: Number of final Protection visa (PV) grants[4]

Program Year	Quarter	PV grants to non-IMA	PV grants to IMA[5]	Adjustment[6]	Total

Table 3 shows final visa grants by citizenship for all applications (IMA and non-IMA). Tables 10 and 19 later in this publication show disaggregated figures for non-IMA and IMA final grants. However, due to different methodologies, the sum of IMA and non-IMA final grant figures for certain countries of citizenship may vary from the official final grant figures published in table 3.

[4] Total PV grants may vary slightly from official program year figures published elsewhere because the data for grants to IMAs has been extracted from departmental systems on a different date employing different methodologies.
[5] In general, only those irregular maritime arrivals who have been found to be refugees are allowed to apply for a Protection visa
[6] Statistical adjustments introduced in this table reconcile the component grant figures with the official program year total.
[7] Top 10 countries of citizenship are based on 2010-11 program year total grants.

[9] A decision made at the end of initial processing by the departmental delegate.

[10] Primary Protection visa grant rates measure the visa grants at the initial processing stage in the Protection visa process as a proportion of total primary decisions (grants and refusals) made in a given period.

[11] Top 20 countries of citizenship are based on 2010-11 program year primary grants.

.. Not published: The department has a policy of not publishing asylum figures (non-IMA) that total less than five. This is to protect the privacy of applicants.

Table 8: Primary Protection visa grant rates[10] by top 20 countries of citizenship[11]

Tables 10 to 11 show non-IMA final Protection visa grants and grant rates for key countries of origin and in total.

These tables show the number of finalised cases during the period and there is not an exact correspondence to the primary outcomes shown in tables 6-8.

[12] Final grant rates measure the visa grants at the final processing stage in the Protection visa process as a proportion of total decisions (grants and refusals) made in a given period.
[13] Top 20 countries of citizenship are based on 2010-11 program year final grants.

Section 2
Irregular maritime arrivals

Irregular maritime arrivals (IMA)

Important Note: Please refer to “About these statistics” in the overview section of this publication.

Table 12: Number of refugee status determination requests from IMAs received[3]

Program Year	Quarter	Requests received
2009-10		**4591**
2010-11		**5175**

[15] A primary Protection visa grant to an IMA is a Protection visa granted to an irregular maritime arrival following a positive refugee status determination made by a departmental delegate. Protection visa grants reported here may vary slightly from figures for grants to IMAs provided elsewhere because the data has been extracted from departmental systems on a different date employing different methodologies.

[16] Top 5 countries of citizenship are based on 2010-11 program year Protection visa grants to IMAs.

[17] The percentage of IMAs who were found to be a refugee and granted a Protection visa expressed as a proportion of all primary decisions (grants and refusals) in a given period.

Tables 14 to 16 above show primary Protection visa grants, refusals and visa grant rates for key countries of origin and in total.

For the irregular maritime arrival (IMA) caseload, the number of visa grants and the associated visa grant rates in the tables do not necessarily reflect underlying recognition rates. This is because of the passage of time following a finding that a person is a refugee while awaiting health, security or character checks.

Table 17: Review recommendations by countries of citizenship

The post primary caseload refers to IMAs who have received at least a primary decision. This incorporates: all persons granted a visa; persons whose primary refusal was affirmed at review; and persons who, at the end of the relevant period, were seeking review of a negative primary decision.

Cohort of IMAs who arrived in 2009-10

Important Note: The following tables present information about outcomes for IMA cohorts by year of arrival rather than year of events as in other tables in this publication. Figures in these tables are revised as at 30 September 2011.

Tables 23-24 show the outcomes as at 30 September 2011 for people who arrived in 2009-10 and 2010-11 respectively.

Table 23: Status of IMAs who arrived in 2009-10 as at the end of the September quarter in 2011

Citizenship	Number of IMAs[21]	Primary grants	Primary refusals	Primary grant rate	Final grants	Final refusals (post review outcome)	% of post primary caseload granted visas	On hand or otherwise finalised[22]

Glossary

Asylum seeker

A person who has left their country of origin, has applied for recognition as a refugee in another country and isawaiting a decision on their application.

Citizenship

Citizenship is based on passports/travel documents at the time of application for protection. If the applicant has no travel documents, citizenship determination is based on information supplied in the application. A formal process is then undertaken to verify information supplied.

Departmental delegate

An employee of the Department of Immigration and Citizenship who is a delegate of the Minister for the purposes of the Migration Act 1958.

Dependent applicant

Member of the same family unit who is included in the application of the principal applicant.

DIAC

The Department of Immigration and Citizenship.

Final decision

A decision made at the end of primary processing where no review has been sought or after the conclusion of all review processes by a departmental delegate to grant a visa or refuse a claim for protection.

Final grant

A Protection visa grant made after the conclusion of all review processes.

Final grant rate

The rate of visa grants at the final processing stage in the Protection visa process as a proportion of total decisions made in a given period.

ICSE

Integrated Client Services Environment

IMA

Irregular Maritime Arrival.

Lodgement

The receipt of a Protection visa application.

Post-primary Caseload

The post primary caseload refers to IMAs who have received at least a primary decision. This incorporates: all persons granted a visa; persons whose primary refusal was affirmed at review; and persons who, at the end of the relevant period, were seeking review of a negative primary decision.

Primary decision

A decision made at the end of initial processing by the departmental delegate to grant a visa or refuse a claim for protection.

Primary grant

A visa granted by the departmental delegate at the primary stage of processing.

Primary grant rate

The ratio of visa grants at the initial processing stage in the Protection visa process as a proportion of total decisions (grants and refusals) made in a given period.

Principal applicant

The main applicant for a Protection visa with specific asylum claims.

Program Year

The period beginning from 1 July to 30 June of the following year.

Protection visa

A visa issued to a non-citizen in Australia to whom the Minister is satisfied Australia has protection obligations under the Refugees Convention, as defined in s36 of the Migration Act.

Refugee

A person who has been found to be a ‘refugee’ as defined in the Refugees Convention (i.e. a person who is unable to return to their home country owing to a well-founded fear of persecution for one of the Convention grounds).

Refusal

A decision that an applicant does not meet the legal criteria for the grant of a visa.

Stateless

A stateless person is an individual who self identifies as stateless, who lacks identity as a national of a state for the purpose of law and is not entitled to the rights, benefits, or protection ordinarily available to a country's nationals.

Valid application

A valid application is one that meets the validity criteria specified in the Migration Act and Regulations.
