Explanatory Notes

This report is produced in accordance with the Senate Order for the Production of Documents – Airplane People (Your Right to Know). The report relates to clients who are applicants of a subclass 866 Protection visa and does not include applicants for temporary protection or safe haven enterprise visas.

Lodgements has been interpreted as all lodgements in the previous month regardless of whether a lodgement is later found to be invalid, or withdrawn. Should a person lodge multiple applications over a period, they will be counted twice as reporting is event based.

Refugee status determinations has been interpreted as all departmental subclass 866 visa decisions made either before or after merits review.

The total number of refugee status determinations awaiting a decision at the end of the period has been interpreted to include any application that has not been finalised, invalidated, withdrawn, refused or granted since lodgement.

Grant of a final protection visa has been interpreted as grant of a protection visa either at primary stage or following remittal from merits review or judicial review.

Deported has been interpreted as removals under the Migration Act 1958.

The total number of individuals that were not granted a Final Protection Visa that have yet to be deported at the end of the period' includes all people who have applied for a protection visa in Australia since 1994 who, at the end of the period, were in Australia and had: not been granted a protection visa, not been removed under the Migration Act, and were either an unlawful non-citizen or held a bridging visa. The figure includes persons who were seeking merits review of their protection visa refusal at the Administrative Appeals Tribunal or were seeking judicial review.

Where citizenship or age is reported as not recorded, this reflects that data is not yet recorded in departmental systems in a reportable field. This could include circumstances where detail on the application is incomplete.
